

## Ralph Coats Roe Award

The award is sponsored by the Mechanical Engineering Division and consists of a \$10,000 honorarium, a plaque and travel expense reimbursement for attendance at the ASEE Annual Conference. The award is funded by an endowment provided by Burns and Roe, Inc. in honor of Kenneth A. Roe's distinguished father. It will be presented at the Mechanical Engineering Convivium held at the Annual Conference.

*Eligibility Requirements:* The award recognizes a mechanical engineering educator who is an outstanding teacher and who has made the following notable professional contributions:

The professional contribution may be in any appropriate category including excellence in classroom and laboratory teaching; developing a significant technique or method of analysis, procedure or synthesis; causing learning to take place through contact with students; involving students and colleagues with innovative aspects of design through problems that are relevant to real life situations; conceiving an idea of great importance to the advancement of the engineering profession or engineering education; teaching, directing or conducting significant research; providing outstanding administrative leadership; creating an important invention; carrying out distinguished service and leadership to the college, the community, the nation or to mankind.

Only mechanical engineering educators who are known for their excellence in teaching are eligible, and those nominated should have exhibited this outstanding performance for at least a decade.

Except for in an emergency, the recipient must attend the Mechanical Engineering Division Convivium at the ASEE Annual Conference.

The recipient must be a full-time member of a college faculty and actively engaged in teaching at the time that the award winner is selected.

*Nominations:* Nominations for this award are submitted directly to ASEE by February 15, 2024, through the website linked below. Submitted materials should include a Nomination Letter, Rationale for Nomination, CV, Supporting Letters and optional Supporting Documents.

## Outstanding New Mechanical Engineering Educator Award

This award is granted each year and recognizes an individual early in their mechanical engineering education career who **has demonstrated the potential, effort and persistence to make sustained and exceptional contributions to mechanical engineering education.** The award consists of a \$500 honorarium, a plaque, and two tickets to the Mechanical Engineering Convivium. The award is presented at the ASEE Annual Conference and Exposition during the Mechanical Engineering Convivium. Attendance at the ASEE Annual Conference & Exposition is required.

*Eligibility Requirements:* Individuals who have **seven or fewer years of academic experience** from the date of their first academic appointment are eligible. **Individuals must be members of the Mechanical Engineering Division.**

*Nominations:* Each nomination package must include (1) a letter of nomination that delineates the

nominee's contribution to mechanical engineering education, (2) no more than two additional letters of support, (3) a one-page letter from the nominee describing his or her personal philosophy regarding mechanical engineering education, and (4) the nominee's curriculum vita. These nomination documents should be *combined into one PDF file* and sent to the chair of the division's Awards Selection Committee (David Mikesell [d-mikesell@onu.edu](mailto:d-mikesell@onu.edu)) and must be received by February 15, 2024. Any nominee not selected in the year of the original nomination will be automatically reconsidered the following year, unless it has been more than seven years past the date of the nominee's first academic appointment.
